The International Planned Parenthood Federation (IPPF) is a global service provider and a leading advocate of sexual and reproductive health and rights (SRHR) for all. We are a worldwide movement of national organizations working with and for all. We are a worldwide movement of member associations in 144 countries, delivering sexual and reproductive health services to more than 182.5 million people and doubling down on our commitment to young people.

**UNITE & PERFORM**
- **WHO WE ARE**
  - The International Planned Parenthood Federation (IPPF) is a global service provider and a leading advocate of sexual and reproductive health and rights (SRHR) for all. We are a worldwide movement of national organizations working with and for all.

POLICY AND LEGISLATIVE CHANGES, BY THEME, 2016

**Champion Rights**

**Advocacy Results, 2016**

IPPF’s advocacy creates an enabling environment to increase access to services, promote sexual rights and gender equality, and reduce stigma and discrimination. IPPF makes a significant difference to the lives of millions by advocating for changes to laws and policies in support of sexual and reproductive health and rights, and opposing those that are harmful.

---

**Association Dominicana Pro-Bienestar de la familia (Profamilia)**

In 2016, the Dominican Republic Senate approved changes to the penal code that criminalized abortion in all circumstances. Profamilia, as co-coordinator of a national coalition, mobilized its 85 members and ran a social network campaign to urge the President to veto this revision. Profamilia testified in the Senate, participated in radio and television programmes, sent a public letter to the President, and disseminated a study on abortion. The President vetoed the revised penal code and submitted a draft proposal to Congress to decriminalize abortion in three cases.

---

**Riksförbundet För Sexuellt Uppbyggnings – Sweden (RFU)**

RFU has been advocating for years for single women in Sweden to be offered state-funded in vitro fertilization treatment. The Association met with Ministry of Health officials and members of all political parties to discuss the importance of giving single women the same access as those with a partner. In early 2016, the Swedish Parliament passed a law that grants women without a partner the same rights as couples, who are usually entitled to three rounds of free treatment at public hospitals.

---

**Family Planning Association of Albania (FPAA)**

In partnership with the Albanian Alliance Against Discrimination of LGBT, FPAA spent years advocating for policies that promote sexual and gender diversity. The Association met with parliamentarians and other members of the government, organized rallies, and consulted on the draft LGBT Pilot of Action. The Plan and an accompanying implementation budget were approved in 2016 and focus on improving legislation; eliminating all forms of discrimination; and improving access to employment, education, healthcare, housing and sports.

---

**Society for Health Education (SHE)**

In the Maldives, the new Gender Equality Law seeks to eliminate sexual and gender-based violence, gender discrimination and sexual harassment in the workplace. The Maldives Member Association, SHE, participated in national level meetings, provided technical input, and shared its knowledge of vulnerable women’s health throughout the process of drafting the bill. The Association also raised public awareness on the importance of promoting women’s leadership and equitable participation, and on the new law itself.

**IPPF South Asia region**

Ahead of the Asia Ministerial Conference on Disaster Risk Reduction 2016, IPPF South Asia Regional Office and the Humanitarian Programme participated in meetings, contributed to technical working groups on gender and health, and worked with various governments to garner support for sexual and reproductive health and rights in humanitarian settings. These efforts contributed to the conference outcome document’s reference to the Sendai Framework for Disaster Risk Reduction, which outlines the importance of including universal access to sexual and reproductive health services, prevention of and response to sexual and gender-based violence, and women’s leadership.

**IPPF (global)**

United Nations Member States adopted a declaration at the High-Level Meeting on Ending AIDS that reflects a rights-based approach to evidence-based sexuality education and includes more progressive language than the previous declaration in 2011. IPPF convened a group of representatives from 10 Member States to organize work, coordinate messages, and determine who would propose what language during negotiations. As a result, the 2016 declaration included text on key populations, human rights and harm reduction, and removed any reference to abstinence and fidelity. This declaration sets the stage for the next phase of combating the AIDS epidemic at national, regional and global levels.
