The 15andCounting campaign

Fifteen years ago, governments across the world committed to providing better access to sexual and reproductive health services, information and education for all young people. The 15andCounting campaign unites young people to urge governments to take action by 2015 to deliver their promises.

Mouvement Français pour le Planning Familial (MFPF)

The Member Association in **France**, Mouvement Français pour le Planning Familial, successfully campaigned for changes in the law authorizing medical abortions to be provided by family planning centres, and not only by hospitals. This has ensured greater access to abortion services.

Federación de Planificación Familiar de España (FPFE)

In **Spain**, abortion has been legal since 1985 but only if the pregnancy is a result of rape, if there is a risk to the woman's health, or in cases of fetal impairment. The Spanish Member Association successfully campaigned for an amendment to the abortion law to remove these restrictions and legalize first trimester abortions on demand.

Belize Family Life Association (BFLA)

In **Belize**, the Family Life Association is a member of the Gender Based Violence Prevention Committee. This committee has been instrumental in successfully advocating for governmental approval of The Enforcement of the Domestic Violence Act which imposes harsher penalties on those who commit domestic violence.

Saint Lucia Planned Parenthood Association (SLPPA)

In **St. Lucia**, the Member Association was able to advocate for a change in the method of delivery of emergency contraception making it available in all pharmacies and social marketing points without a prescription. Prior to this it was only available at hospitals in the emergency units making access difficult.

Association Togolaise pour le Bien-Etre Familial (ATBEF)

The Member Association in **Togo** participated in the development of the national programme for people living with HIV and worked with the government to review the policy relating to the provision of antiretrovirals (ARV). In October 2008, the government of Togo declared provision of free ARV for all people living with HIV.

Namibia Planned Parenthood Association (NAPPA)

In **Namibia**, the Member Association campaigned for and participated in the process of developing the new national policy on reproductive health.

IPPF's total income has increased by **38 per cent** over the last five years from **US\$235.8 million** in 2004 to **US\$324.5 million** in 2008.

of Member Association governing board members are **women**.

"On sexual rights, IPPF have made extraordinary progress in an extremely difficult area. They are well positioned to bring sophistication to that debate because they are so big and because of the diversity of their membership. They have an amazing possibility to make these concepts useful for people."

IPPF donor

Sexual rights: an IPPF declaration

Through the declaration, IPPF is working to ensure that sexual rights are respected as sexuality is a natural and precious aspect of life, and an essential and fundamental part of our humanity. IPPF's declaration on sexual rights will enable members of the sexual and reproductive rights communities to create positive change around sexual rights in preparation for the next International Conference on Population and Development in 2015.

Planned Population Federation of Korea (PPFK)

In the **Republic of Korea**, there were not enough breastfeeding spaces at work and most working mothers had to stop breastfeeding after their three-month maternity leave, or breastfeed and/or express milk in the toilets. The Planned Population Federation of Korea advocated along with other organizations for a change in the situation, and as a result, the government enacted a law to oblige employers to provide adequate breastfeeding rooms in the workplace.

Planned Parenthood Association of Thailand (PPAT)

The Member Association in **Thailand** was invited by the National Health Assembly to input into the revision of resolution 1/10 which urges not only the Ministry of Education and schools, but also other government departments and non-governmental organizations, to provide comprehensive sexuality education in schools.

Family Planning Association of Bangladesh (FPAB)

The Family Planning Association of **Bangladesh** successfully campaigned to have oral contraceptive pills and condoms included in the national essential drugs list.

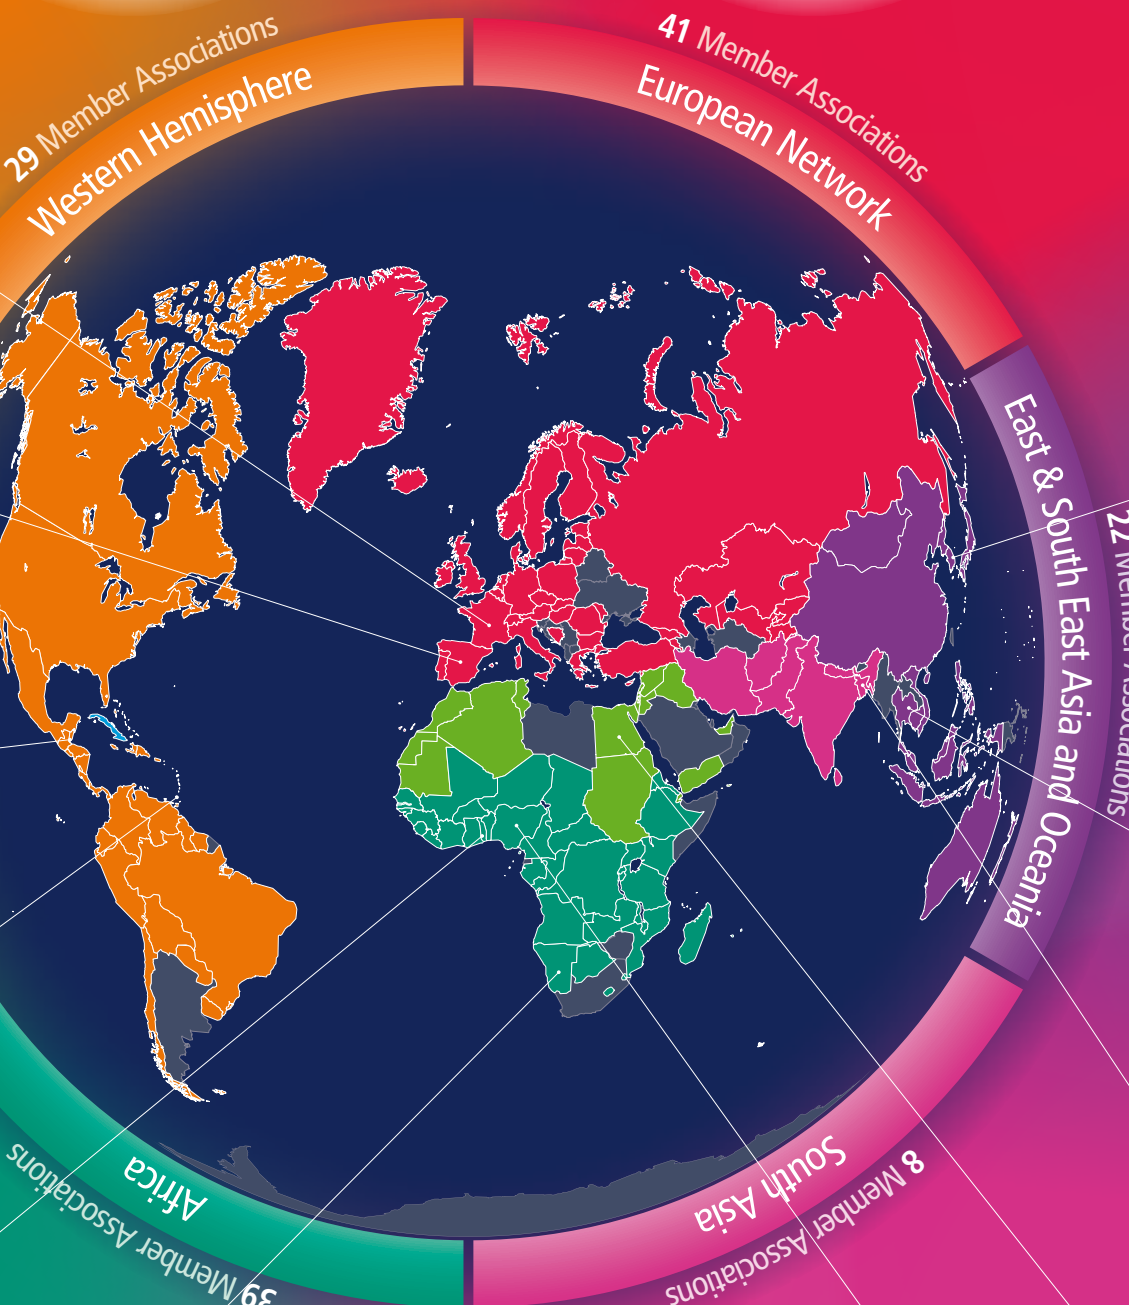

Egyptian Family Planning Association (EFPA)

The Member Association in **Egypt** successfully campaigned against female genital mutilation and marriage of girls below 18 years of age. In 2008, the Egyptian government passed laws banning both practices.

Planned Parenthood Federation of Nigeria (PPFN)

The Planned Parenthood Federation of **Nigeria** advocated for the provision of free antenatal care. As a result, it is now available in all government hospitals and clinics in four states of the country.

of our funding goes to countries with **high sexual and reproductive health needs**.

of Member Associations had undergone an **accreditation review** by the end of 2008.
